CONTENTS OF VOLUME 2

Number 1

TUBULOINTERSTITIAL RENAL DISEASES OF CHILDREN: Pathologic Features and Pathogenetic Mechanisms in Fanconi's Familial Nephronophthisis, Antitubular Basement Membrane Antibody Disease, and Medullary Cyst Disease □ Leszek Helczynski and Benjamin H. Landing 1

LIPID-LADEN MACROPHAGES IN TRACHEAL ASPIRATES OF NEWBORN INFANTS RECEIVING INTRAVENOUS LIPID INFUSIONS: A Cytologic Study □ Aida L. Recalde, Bruce G. Nickerson, Maria Vegas, Charles B. Scott, Benjamin H. Landing, and David Warburton 25

ACETYLCHOLINESTERASE HISTOCHEMISTRY AND THE DIAGNOSIS OF HIRSCHSPRUNG'S DISEASE: A 3½-Year Experience □ Paul E. Wakely, Jr. and A. James McAdams 35

SCANNING ELECTRON MICROSCOPIC STUDY OF THE AIRWAYS IN NORMAL CHILDREN AND IN PATIENTS WITH CYSTIC FIBROSIS AND OTHER LUNG DISEASES □ David L. Simel, J. Pat Mastin, Philip C. Pratt, Charles L. Wisseman, John D. Shelburne, Alexander Spock, and Peter Ingram 47

GERMINOMA OF THE PINEAL BODY WITH SYNCYTIOTROPHOBLASTIC GIANT CELLS □ Ricardo Drut and Marta Celina Jones 65

PATHOLOGY OF SUSPECTED ACQUIRED IMMUNE DEFICIENCY SYNDROME IN CHILDREN: A Study of Eight Cases □ V. V. Joshi, J. M. Oleske, A. B. Minnefor, R. Singh, T. Bokhari, and R. H. Rapkin 71

ARNOLD-CHIARI MALFORMATION: Report of a Case with Contamination of Ventricular and Subarachnoid Spaces by Amniotic Sac Contents □ Dimitris P. Agamanolis, Marvin S. Platt, and John H. Vollman 89

CYTOMEGALOVIRUS INFECTION OF THE BOWEL IN INFANCY: Pathogenetic and Diagnostic Significance □ James E. Dimmick and Kevin E. Bove 95

LUNG PERFORATION BY CHEST TUBES IN THE NEONATE □ Geoffrey A. Machin 103

NOREPINEPHRINE-INDUCED PULMONARY PETECHIAE IN THE RAT: An Experimental Model with Potential Implications for Sudden Infant Death Syndrome □ Henry F. Krous, Andrew C. Catron, and Jay P. Farber 115

ANNOTATED BIBLIOGRAPHY: Renal Disease 123

ANNOUNCEMENTS 124

Number 2

FIVE SYNDROMES (MALFORMATION COMPLEXES) OF PULMONARY SYMMETRY, CONGENITAL HEART DISEASE, AND MULTIPLE SPLEENS □ Benjamin H. Landing 125

TISSUE CULTURE OF EPITHELIAL CELLS FROM URINE I. Serum-free Growth of Cells from Newborn Infants □ Dorothea S. Hintz, Mary Ann Sens, Margaret Q. Jenkins, and Donald A. Sens 153

TISSUE CULTURE OF EPITHELIAL CELLS FROM URINE II. Application to Patients with Cystic Fibrosis □ Mary Ann Sens, Dorothea S. Hintz, Dorothy S. Rutledge, Margaret Q. Jenkins, and Donald A. Sens 165

CLINICOPATHOLOGIC SPECTRUM OF GLOMERULOCYSTIC KIDNEYS: Report of Two Cases and a Brief Review of Literature □ Vijay V. Joshi and John Kasznica 171

INTERVENTRICULAR FIBROMA AND CYSTIC RENAL DYSPLASIA IN A NEWBORN □ Joyce Schwartz, Victor Saldivar, Fermin Tio, and Colette Kohler 187

CHEMOTHERAPY-INDUCED HISTOLOGIC CHANGES IN WILMS' TUMOR □ Luis A. Guarda, Alberto G. Ayala, Norman Jaffe, W. W. Sutow, and R. B. Bracken 197

CHOLELITHIASIS IN A PRETERM INFANT □ Iona Jeffrey, R. J. Lund, and A. Whitelaw 207

CASE REPORTS FROM THE PEDIATRIC PATHOLOGY SLIDE SEMINAR: Annual Meeting of the International Academy of Pathology, Boston, Massachusetts, March 1, 1982 □ Harvey S. Rosenberg and William A. Blanc 215

LETTERS TO THE EDITOR 245

Number 3

SOLITARY INTESTINAL FIBROMATOSIS WITH PERINATAL BOWEL OBSTRUCTION □ J. R. Srigley and K. Mancer 249

TRACHEOMALACIA—LETHAL FACTOR IN A 17-MONTH-OLD CHILD □ John L. Emery, C. F. Nanayakkara, and M. P. Wailoo 259

ADVERSE HISTOPATHOLOGIC EFFECTS OF CHEMOTHERAPEUTIC AGENTS IN CHILDHOOD LEUKEMIA AND LYMPHOMA □ Thomas Wiedrich, Daniel Keller, Sunita Arya, Enid Gilbert, and Michael Trigg 267

STRANGULATION OF THE UMBILICAL CORD BY AMNIOTIC BANDS: Report of 6 Cases and Literature Review □ Stephen A. Heifetz 285

FETAL DEFORMATION CAUSED BY UTERINE MALFORMATION □ G. S. Crabtree, G. A. Machin, J. M. E. Martin, S. F. Nicholson, and C. A. Nimrod 305

THE SYNDROME OF CAUDAL DYSPLASIA: A Review, Including Etiologic Considerations and Evidence of Heterogeneity □ J. Philip Welch and Kurt Aterman 313

CASE REPORTS FROM THE PEDIATRIC PATHOLOGY SPECIALTY CONFERENCE: Annual Meeting of the International Academy of Pathology, Atlanta, Georgia, February 28, 1983 □ William A. Blanc and Harvey S. Rosenberg, *Moderators* 329

CASE 1 Systemic Amyloidosis in an Infant with Panniculitis and Pancreatitis □ Carlos R. Abramowsky 331

CASE 2 Placenta of Erythroblastosis and Maternal Hepatitis □ Geoffrey Altshuler 337

CASE 3 Fibrous Hamartoma of Infancy □ David L. Gang 339

CASE 4 The First Fatal *Baylisascaris* Infection in Humans: An Infant with Eosinophilic Meningoencephalitis □ Dale S. Huff, Ronald C. Neafie, Michael J. Binder, Guillermo A. De León, Lawrence W. Brown, and Kevin R. Kazacos 345

CASE 5 Histiocytosis X Involving the Skin □ Ronald Jaffe 353

CASE 6 Adrenal Hypoplasia in Triploidy □ Dagmar K. Kalousek 359

CASE 7 Pulmonary Alveolar Septal Calcinosis □ Benjamin H. Landing 363

ABSTRACTS: Proceedings of the Twenty-ninth Annual Meeting of the Paediatric Pathology Society 369

ANNOTATED BIBLIOGRAPHY: Solid Tumors 379

Number 4

DEDICATION iii

SIDNEY FARBER WORKSHOP, February 26, 1982

Welcome and Dedication: Sidney Farber and the Histiocytoses □ *Allan Crocker* 381

Part I: Definitions, Patterns, and Prognosis 383
Clinical Evolution of the Histiocytoses □ *Joel Greenberger* 383
Prognostic Factors in Histiocytosis □ *Eugene Lahey* 385
Definition of the Histiocyte □ *Blaise Favara* 387
Distribution of Involvement in Letterer–Siwe Disease and Lymphohistiocytosis □ *Benjamin Landing* 395
Hematologic Findings □ *Jeffrey Lipton* 399
Pulmonary Involvement in the Histiocytoses □ *Lynne Reid* 400
Liver Involvement in Histiocytosis □ *Harvey Goldman* 402
Discussion 403

Part II: Approaches to Laboratory Investigations 404
Introduction □ *Gordon Vawter* 404
Thymic Involvement in Histiocytosis □ *Gordon Vawter and Kevin Bove* 406
Autocytotoxic Circulating Lymphocytes in Histiocytosis □ *Robertson Parkman* 409
Eczema as a Model for the Study of Cellular Interaction □ *Donald Leung* 413
In Situ Characterization of Cell Populations in Histiocytosis by Use of Monoclonal Antibodies □ *Atul Bhan* 414
Advances in Tissue Culture Techniques □ *Herbert Lazarus* 415
Analysis of Myeloid Differentiation Using Monoclonal Antibodies □ *Robert Griffin* 417
Differentiation Antigens on Human Monocytes and Macrophages Defined by Monoclonal Antibodies □ *Richard Todd* 417
Monoclonal Antibodies to Histocompatibility Antigens □ *Lee Nadler* 419
Discussion 419

Part III: Toward Rational Therapy 423
Biologic Interpretation of Radiosensitivity □ *Guilio D'Angio* 423
Radiation Therapy Experience □ *Joel Greenberger* 424
A Rational Basis for Chemotherapy □ *Jeffrey Lipton* 426
Studies in the Use of Thymic Humoral Factors □ *Jeffrey Lipton* 431

PART IV: Resolves □ *Eugene Lahey and David Purtilo* 432

(*continued*)
